

The stories of Elijah and Elisha are part of the history of the northern kingdom of Israel in I & II Kings. The author's purpose is to explain why Israel (and later Judah) were exiled. Israel failed to listen to the prophets, who proclaimed that God is King. If the earthly king obeys God (the true King!) then everything will be fine. But the kings did not follow God's leading.

Join us this fall as we explore the stories of Elijah and Elisha.
