MISSION

Construction projects in the DR help the Dominican Evangelical Church provide facilities that would be difficult for them to have without the support of teams. Our main focus right now is on building parsonages for pastors to live in. Not having to rent houses for pastors will help save the church money and in turn help pastors be able to focus on serving their community instead of having to look for second jobs to provide for their families.

Vacation Bible School is provided for the local children in the afternoons to help teach children about the love and life of Jesus Christ. They participate in worship, arts & crafts, bible stories and more.

LOCATION

Evangelical Church of the Dominican Republic
Calle Bartolomé Colón, Santo Domingo 10309,
Dominican Republic
