Meet the Director

Yodit Negash, Director and head teacher, graduated from Miramonte School then went on to Mountain View Academy and from there onto Pacific Union College where she received a B.S Degree.

As a product of Christian education, Yodit understands first-hand the value and benefits it provides students. Ms. Negash has worked in Early Childhood Education for over ten years.

Yodit enjoys baking and loves to expose her students to hands-on learning in various culinary ways from cookies to bread. As a preschool teacher, she delights in seeing her students laughing and enjoying their academic experience.

Ms. Negash feels honored to be charged with introducing these young minds to the joy of learning.

If you feel our program could be a good fit for your child, please fill out the accompanying application. Ms. Negash will schedule a personal interview with you and your child to access academic readiness.

Our program

Our Early Learning Center is a wonderful place for your young child to come and get excited about learning as they prepare for kindergarten.

We nurture the whole child as we focus not only on the academics but the physical, spiritual, emotional and social aspects of each student.

As a part of their socialization, we encourage children to learn and play together, which provides opportunities to practice conflict management skills.

Prayer and worship are a regular part of our day as we point students to Christ's love for us and encourage children to share God's love with their classmates.

Students play outside several times a day as they explore the playground, tricycles and other outdoor toys.

Learning centers are setup around the classroom for students to explore including science, math, literacy and art. All stations include hands-on objects or activities for children to explore.

Students learn at their own pace to create an enjoyable experience, encouraging them to reach their highest potential.

What you can expect?

Miramonte Early Learning Center offers an age appropriate, play-based program for three and four-year old Here are a few highlights of our program.

- Age appropriate curriculum designed to stimulate and challenge each child at their own level.
- Weekly science projects and cooking activities.
- Thematic areas in the classroom to encourage children to think and discover for themselves.
- A fun, playful atmosphere where children can feel free to explore the world around them and ask questions.
- Guidance to develop and strengthen social boundaries, appropriate behaviors and independence.
- A Christ-centered approach to learning.
- Loving teachers that nurture your child's social, emotional, educational development.
- Small class size (1:12 teacher student ratio).
